

3 Surefire Ways to Back Up Your WordPress Blog: Step-by-step Ways to Protect Your WordPress Blog

So, you've got this really cool WordPress blog! You're feeling like all is really great. Then, one morning, you find out that it's been hacked! It's gone. What will YOU do? Well, if you've backed it up, then you'll just restore it. Problem solved! Did you know, that it's not AUTOMATICALLY backed up? And that it's NOT easy to back it up? Didn't think so... This is where 3 Surefire Ways to Back Up Your WordPress Blog comes in. Ron gives you three ways to back up your WordPress blog. The first one is for non-techies or those who don't want to learn how to do it and describes the important questions to ask of the person who will be backing it up for you. The second one is also for non-techies, but details installation and usage of a way to back it up, restore it, and even clone it to other places in seconds using an off-the-shelf program. The third and final method is for techies or for those on a student budget and are willing to spend some time learning the technical ins and outs of how to do themselves. Don't be caught off-guard with a missing blog tomorrow morning! Wake up with confidence that you will be able to be back on-line in minutes... rather than weeks... if ever!
