

Split Second: Life Change

Sandra and Ray Hocking have worked hard their whole lives; in their sixties, they were simply looking forward to retirement. In an instant, however, their lives changed forever when Ray suffered a freak accident that caused him to be paralyzed. He needed around-the-clock care and couldn't even live in his own home. Ray struggled to make progress at a rehabilitation facility before moving to a convalescent home, which became his permanent home. Although he had lost the ability to move like he once did, he continued to inspire everyone he met. A constant advocate for her husband, Sandra did everything she could to help him recover a life worth living. She liquidated assets, organized fundraisers for an accessible van, and researched grants. She determined what assistance her husband qualified for and what he didn't and through it all, Ray kept a positive attitude. Sandra spent some time being angry, but she sees every day with her husband and their family is a gift. She has already found out that it can all change in a Split Second.
