

## JFK: The Dead Witnesses

In the years following the assassination of President John F. Kennedy, more than one hundred witnesses, investigators, and other people linked to the ambush in Dealey Plaza have died. The majority have met their fate under extremely suspicious circumstances. Murders, mysterious accidents, and suicides account for more than half of those who have died since that fateful day in 1963. In JFK: The Dead Witnesses authors Craig Roberts and John Armstrong present the results of their investigations into the deaths of each of the victims. For the first time, the cases are detailed in chronological order exposing what each witness saw, what they might know, know they died, and how they were connected to the murder of JFK and often, to each other. Follow the trail of bodies through thirty years of intrigue, coverups and scandals as Roberts and Armstrong open the curtain that have for too long hidden the facts behind the dead witnesses!
