

At Face Value: My Triumph Over a Disfiguring Cancer

Terry Healey was a junior at the University of California at Berkeley. At the age of twenty, his life had been smooth sailing, seldom interrupted with adversity or difficulty. Terry was confident and not concerned much with his appearance. But out of nowhere, a lump formed behind his right nostril. Cancer. He fought it and survived. But after multiple surgeries and radiation treatment, Terry would discover that he hadn't even begun to deal with what would become his greatest struggle for years to come - the disfigurement that resulted from it.
