

# Heavenly Highs: Ayahuasca, Kava-Kava, DMT, and Other Plants of the Gods

Heavenly Highs introduces the world of entheobotanicals used by shamans and psychedelic explorers. Included are explanations of DMT, found in psychedelic snuff; Amazonian ayahuasca, a bitter beverage that triggers visionary experiences with plant gods; Ibogain, a yellowish root ingested by indigenous peoples to achieve visionary experiences; and Belladonna, Yohimbe, and Kava-Kava. Noted psychedelic scholar Peter Stafford profiles each group in detail. Photographs, illustrations, tables, and charts are included.
