

Women Adventurers 1750-1900: A Biographical Dictionary With Excerpts from Selected Travel Writings

This biographical dictionary provides an extensive guide to prominent female travelers of the late 18th and early 19th centuries. British women make up the largest portion of the books focus--these particular adventurers being backed in many cases by family money, scientific inquiry, and the ready availability of British sea travel. Organized alphabetically by the adventurers last names, each entry features biographical information including the womans family background, her educational history, and a brief summary of her world travels.
