

Introduction to JavaScript Scripting Multi-platform Student Manual with floppy disc

This student manual is designed to help the student who wants to learn how to use JavaScript to enhance his or her HTML Web pages. To ensure your success with this course, we recommend that you first take the following Logical Operations course or have equivalent knowledge: HTML: Programming Level 1 and Fundamentals of Microsoft Visual Basic or Java Programming Introduction. What you'll find in this manual:

- *A table of contents
- *Lessons containing objectives, explanations, guided hands-on activities, independent practice activities, and wrap-ups
- *Solutions for wrap-ups and minds-on activities
- *A keystroke and (if applicable) icon references
- *A glossary of terms used in this course
- *An index
- *A data disc (in envelope in the back of the manual)

What you'll find in each lesson:

- *A list of lesson objectives
- *Topics
- *Hands-on activities
- *A Lesson Wrap up
