

## How to Lose Friends and Alienate People

In 1995 high-flying British journalist Toby Young left London for New York to become a contributing editor at Vanity Fair. Other Brits had taken Manhattan?Alistair Cooke then, Anna Wintour now?so why couldnt he? But things didnt go quite according to plan. Within the space of two years he was fired from Vanity Fair, banned from the most fashionable bar in the city, and couldnt get a date for love or money. Even the local AA group wanted nothing to do with him.How to Lose Friends and Alienate People is Toby Youngs hilarious account of the five years he spent looking for love in all the wrong places and steadily working his way down the New York food chain, from glossy magazine editor to crash-test dummy for interactive sex toys. But its more than the longest self-deprecating joke since the complete works of Woody Allen (Sunday Times); its also a seditious attack on the culture of celebrity from inside the belly of the beast. And theres even a happy ending as Toby Young marries?for proper non-cynical reasons, as he puts it?the woman of his dreams. Some people are lucky enough to stumble across the right path straight away; most of us only discover what the right one is by going down the wrong one first.
